

**ELTEC**®  
**GREEN ENERGY**

ELTEC Green Energy GmbH  
Transformers, Solar and Wind  
Energy - Project Development

**TRANSFORMING  
ENERGY**

Eltec Green Energy GmbH is a subsidiary of the Eltec Group which has been in operation since 1970 and is a leading provider of power transformer system integration solutions for the global energy industry.

With decades of expertise, global experience and a commitment to innovation, we deliver cutting edge technologies that enable a sustainable energy future.

## Our Team

**Paul Quinlan**  
Commercial  
Manager

**Murray Greer**  
Head of  
Project Management

**Graeme Lockwood**  
Technical  
Project Manager

**Katarzyna Pawlowski**  
Executive Assistant

**Björn Heidrich**  
Managing Partner

**Peter Konings**  
PV Project  
Manager

**Gentiana Alija**  
Head of Technical  
PV Team

**Dr Tim Faustmann**  
Principle Advisor

**Sofiia Korniiichuk**  
Project Coordinator

### Worldwide Presence:

With **strategic** locations across Europe and Asia, complemented by our **extensive network**, Eltec can **provide localized support and expertise** to clients around the world.

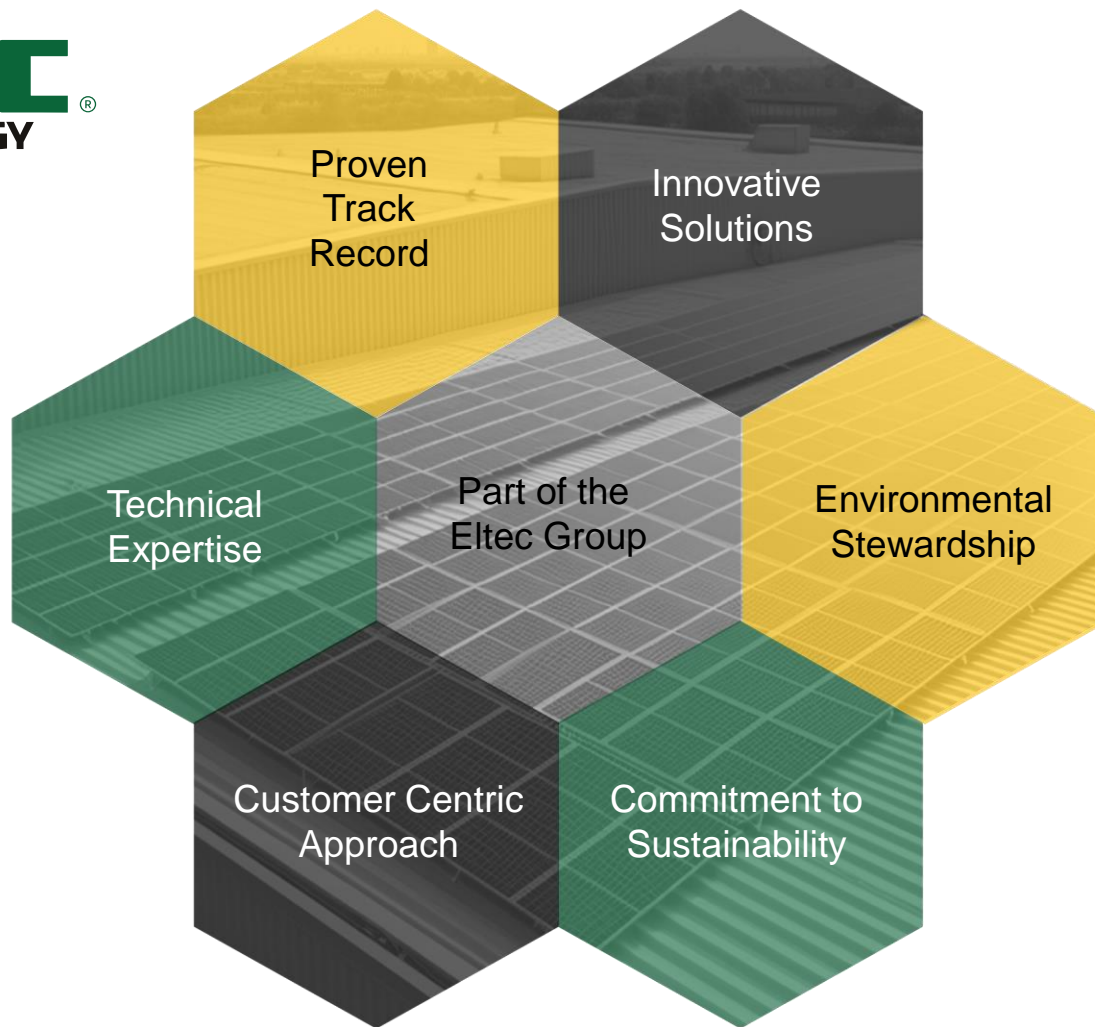

### Local Partnerships:

Eltec values local partnerships and collaborates with trusted suppliers and contractors to ensure **seamless project delivery**, irrespective of location. By leveraging local expertise and resources, we **streamline operations to the benefit of our clients**

### Global Logistics:

Our robust logistics network enables the **timely delivery of critical components and equipment**, even to the most remote project sites. Ensuring that your project stays on schedule and within budget

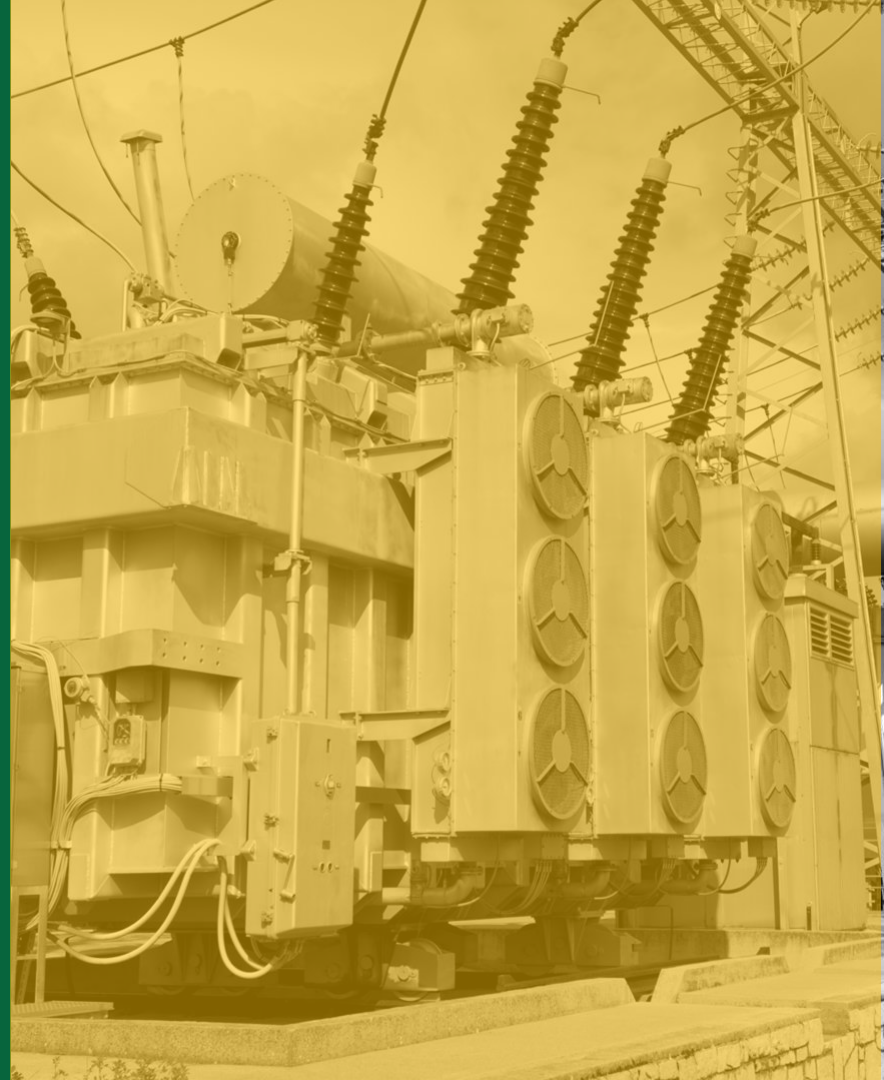

## Design and Engineering

Eltec's team of experts provides **cutting-edge engineering integration services**, meticulously optimizing power transformer systems and other energy technologies like PV and Wind for maximum efficiency and reliability. *With a focus on innovation, we tailor solutions to meet the unique needs of each project, ensuring optimal performance and longevity.*

## Project Management

Our dedicated project managers oversee every aspect of your project, from initial planning to final delivery. With a **keen eye for detail and seamless coordination**, they ensure that timelines are met, resources are utilized efficiently, and all project requirements are fulfilled to the highest standards.

## Maintenance and Repair

Eltec's **comprehensive maintenance and repair services** are designed to keep your power transformer systems and solar plants, operating at peak performance. From routine maintenance checks to emergency repairs, our skilled technicians are equipped to handle any issue swiftly and effectively, minimizing downtime and maximizing uptime for your operations.

## Consultancy

Comprising a team of international engineers, energy specialists, policy experts, and utility advisors the Eltec draws on a network of regional and international partners and associates to offer a broad range of services in the energy sector.

### CONSULTANCY

- Development of energy policies and action plans
- Project management for donor agencies (USAID, ADB, EU, UNDP, GIZ)
- Consulting on energy mix and renewable energy (RE) development
- Technical assistance for corporations in energy infrastructure development
- Integration plans for renewable energy technologies
- Conducting feasibility studies
- Grant writing

## Product Range

- ✓ Transformers and Sub-Stations
- ✓ Solar PV Systems
- ✓ Smart Storage
- ✓ Wind Generation.
